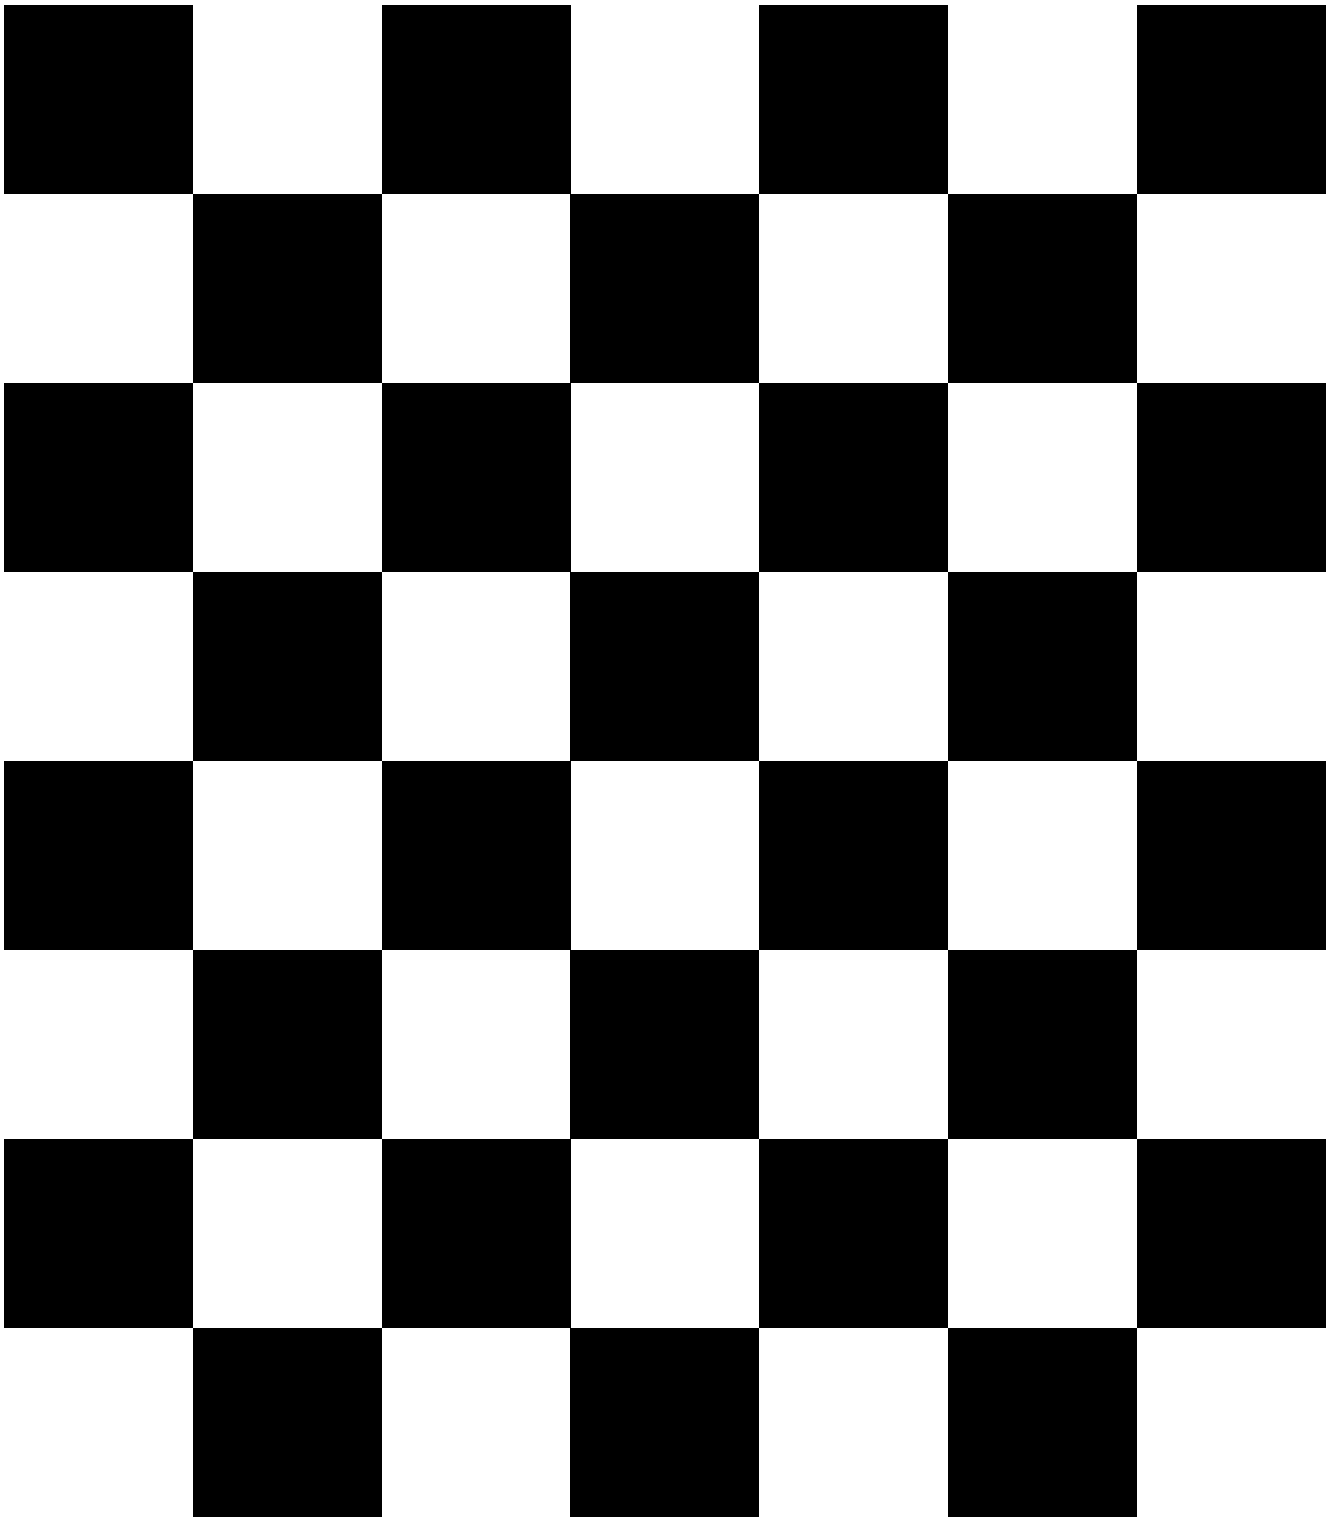
Calibration chessboard

8 × 7 squares, which is 7 × 6 inner corners. Each square is 25 mm.

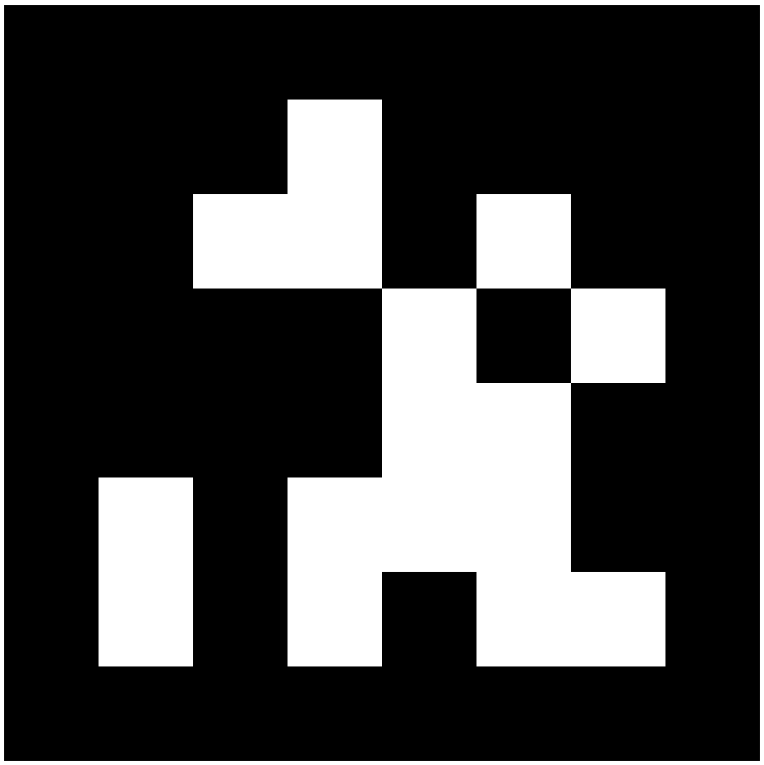


This bar should measure exactly 100 mm.

Print at 100% (Actual size) with Fit to Page off, then attach the sheet to something flat and stiff.

AprilTag: family tag36h11, ID 0

Tag size (edge of the black square): 100 mm



Print at 100% (Actual size) with Fit to Page off, and keep the sheet flat.

Check that the black square measures 100 mm. If it doesn't, reprint, or use the size you measured in your code.

Keep the white margin around the tag.
